WEDNENDAY EVE., AUGUST 20.1884.

The cause of Judge Riddell's defeat is thus truthfally explained by a correspondent of the Louisville Post, a Democrat of Eastern Kentucky who is well posted on the political situation. He says. "The defeat of Judge Riddlle by Judge Holt for Judge of the Court of Appeals is a severe blow to the Democrate of the Severe blow to the Democrate of the series of the severe low to the bencerate of the series of the serie should hold them to strict account in the future for their treachery. The Democrats of the First Appellate District, by electing the present Chief Justice, have sacrificed that district to pass into the hands of the Republicans, and the Ninth and Tenth Congressional Districts, both of which are now represented by Republicans, all of which was brought about by the division in the Democratic party—the Hargis and anti-Hargis factions. Judge Riddell made this fight single-handed and alone, and only two or three Democrats in the district made speeches in his behalf. Old 'Cerro Gordo' Williams, who is repairing his fences preparatory to making the race for the next Governorship, could not find time to speak, when he was most needed and his friends, or at least some of them, thought that his silence was indicative that he wanted Riddell downed. Hon, W. J. Hendricks, the 'statesman' from Fleming, and Assistant Elector for the State-at larce, was as silent as a dumb animal, and assistant Elector for the State-at larce, was as silent as a dumb animal, and a sast as the lector for the case which led to Riddell's defeat. Hon. W. J. Hendricks, the 'statesman' from Fleming, and Assistant Elector for the State-at large, was as silent as a dumb animal, and is reported to have asserted that he had no interest in the race. There were other causes which led to Riddell's defeat. The entire influence of the Christian Church was used against him, and I have heard that the wife of the late Judge Reid subscribed \$1,000 for the election of Holt. In Estill county a family of Democrats, numbering over one hundred, voted against Riddell because, as Circuit Judge, he decided a case against one of the family. The vote in Bourbon county was simply a shame, and Hon. Charles Offutt will have to rise and explain at the propertion. It was a poor showing if he did any work for Riddell. The latter will be defeated by about three hundred, and if Bourbon county had done, her duty Riddell's majority would have been not less than three hundred. This district comprises more than one third of the counties of the State, and a Republican victory in this Presidential year will have considerable effect on other sections."

The cost of the electric light for the illumination of cities, as compared with gas, has been computed by Hartford, Conn, where the lights have been in use for about a year. The report states that each electric light in use displaces six and one-half street gas burners, besides giving at the same time at least ten times as much light. The gas lights cost \$35 per anum, kent burning three hundred and one-half street gas burners, besides giving at the same time at least ten times a much light. The gas lights cost 835 per annum, kept burning three hundred and twenty-six nights in the year, while for the electric light before each gain to be a six and one-half gas burners, a saving of \$15.60 per lamp per annum is effected by the tuse of electricity, besides the cost of lighting and extinguishing the gas lamps, and the six and the six and an armed pose pursuing the six and the

They did not have the courage to vote against him themselves, but worked industriously for Holt. If this be true, the whole gang should be exposed. The Democracy of Kentucky ought to know all their names from the griants to the dwarfs."

The report has reached Whatter the states are the states and the substitution of the 14th inst, and that 100 persons were killed. The authorities had previously received an anonymous warning, but under the states are the states and the states are the whole gainst the states are the
